Dear Andrew:

In response to a telephone request from Mary Covington today, I am enclosing herewith a paper entitled "Tobacco Smoke Constituents" which we have just completed this past week for PME (Tana Wells) for the Executive Manual together with hard copies of all of the references cited in this paper. I am also enclosing another paper entitled "Tobacco Smoke Components" and have marked this with the letter "X" in the upper right-hand corner. This paper is essentially the same as the "Tobacco Smoke Constituents" paper with a few slight differences. Most of the references are also contained in the "Tobacco Smoke Constituents" paper.

Also enclosed is a paper entitled "Printing Constituent Levels on Cigarette Packages--Some Practical Considerations" which was also prepared for PME in draft form in July of 1977. This paper may have some helpful arguments or information in it for your assistance.

Andrew, after you have reviewed the enclosed, should you feel any further information, papers, documentation, etc., are necessary, please let me know.

With best personal regards.

Sincerely,

Don

Donald K. Hoel
